Pharmacy Announcement

Requirements for Over the Counter (OTC) Medications

Certain Over the Counter (OTC) medications are a covered benefit for Nevada Medicaid recipients. Please remember all OTC products require a prescription, must be approved by the Food and Drug Administration (FDA), must not be on the exclusion list and the manufacturer must participate in the rebate program. Two prescriptions per month are allowed within the same drug class without prior authorization. Medical supplies must be billed through the Durable Medical Equipment (DME) program (provider type 33).
