Web Announcement 1422

Attention Provider Type 14 (Behavioral Health Outpatient Treatment): Notification Regarding Some Claims Paying Incorrectly

Provider type 14 (Behavioral Health Outpatient Treatment) providers are being paid incorrectly as some claims are being cut back to pay only 1 unit. The Medicaid Management Information System (MMIS) will be updated to pay these claims correctly. Affected claims that cut back incorrectly with edit code 0476 (CCBHC Limit Edit 1 unit per day) will be automatically reprocessed. A future web announcement will notify providers when the system is updated and when the claims are reprocessed.
