Information Regarding Reprocessed and Mass Adjusted Claims

When Nevada Medicaid reprocesses claims and completes mass adjustments for claims, please be aware that all system and clinical claim editor edits are applicable. As a result, there may be no additional payment, and claim denials may be received. Please review your remittance advice (RA) for additional detail concerning the adjudication of claims impacted by mass adjustments or claim reprocessing. Additionally, if a claim that was reprocessed or mass adjusted is reflected on your RA as pending, please allow 30 days for the edit to be reviewed and for the claim to complete the adjudication process.
