Web Announcement 1756

New Behavioral Health Outpatient or Rehabilitative Authorization Request Form

Attention Provider Types 14 (Behavioral Health Outpatient Treatment), 26 (Psychologist) and 82 (Behavioral Health Rehabilitative Treatment): Prior authorization (PA) request forms FA-11 (Outpatient Mental Health Request) and FA-11A (Behavioral Health Authorization Request) have been combined and replaced by a new form FA-11 (Behavioral Health Outpatient or Rehabilitative Authorization Request). The new form is for PTs 14, 26 and 82 to utilize when requesting either outpatient behavioral health services and/or rehabilitative services. The form provides the opportunity to supply all of the pertinent information for the PA to be reviewed for medical necessity.

Providers are requested to stop using the previous versions of forms FA-11 and FA-11A immediately and use the new form FA-11.

The form can be found on the [Providers Forms](#) webpage at www.medicaid.nv.gov.
