Web Announcement 2046

Attention Provider Type 22 (Dentist): Fluoride Toothpaste Coverage

Currently, dental prescriptions for name brand fluoride toothpaste such as PreviDent® are not eligible for coverage under the Nevada Medicaid (Fee-For-Service) pharmacy benefit. However, sodium fluoride cream and/or gel may qualify for coverage under the pharmacy benefit. The product manufacturer must participate in the Medicaid Drug Rebate Program for coverage consideration.

The following resources are available for providers:

- The Nevada Medicaid (FFS) Pharmacy services billing information:
<https://www.medicaid.nv.gov/providers/rx/billinginfo.aspx>
- Medicaid Drug Rebate Program Data:
