Nevada Medicaid Web Announcement 3583

Attention Provider Type 29 (Home Health Agency): Updates to Billing Requirements

Effective March 17, 2025, provider type (PT) 29 (Home Health Agency) providers are no longer required to enter 500 or 400 on claims to indicate whether a recipient's residence is urban or rural. Recipients will now be automatically assigned an indicator of Urban or Rural based on the Zip code of their residence. This indicator will ensure that claims are billed and paid correctly. See the [PT 29 Billing Guide](#) for further information about urban and rural regions and other billing instructions.

No claims will be reprocessed automatically as this is a go-forward update.
