Nevada Hospital Assessment Program Bulletin:

Date: July 2, 2025
From: Stacie Weeks, Nevada Medicaid Administrator
Subject: Nevada Private Hospital Assessment State Fiscal Year (SFY) 2025 Rate Levied

PURPOSE: This letter is intended to announce the assessments required under NRS 422.3794. As provided under this law, the State may levy an assessment on certain healthcare providers if such providers concur with such an assessment by an affirmative vote of at least 67%. The hospitals in this State voted to approve an assessment on inpatient and outpatient services provided by private hospitals.

ASSESSMENT RATES: The assessment rates for state fiscal year (SFY) 2026 levied on inpatient and outpatient services are set at a percentage such that 6% of net patient revenue for inpatient and outpatient services will be collected.

The exact percentages applied to an individual private hospital's inpatient and outpatient net patient revenue less Medicare revenue will be determined in a future bulletin. The Nevada Health Authority (NVHA) will announce exact tax rates as applied to a hospital's net patient revenue less Medicare revenue as soon as possible.

NOTIFICATION & PAYMENT AMOUNTS: In the coming weeks, NVHA will provide private hospitals with invoices showing the exact amount owed for SFY 2026. All private hospitals must pay such invoices in a timely manner to ensure that the corresponding supplemental payments through Medicaid can be made by the state.
