

**UPDATE: The effective date for this enhancement has been changed to March 16, 2026.**

**January 20, 2026 (Updated February 6, 2026)**

**Nevada Medicaid Web Announcement 3820**

**Attention Provider Type (PT) 19 (Nursing Facilities) and Hospitals under PTs 10, 11, 13, and 14:**

**Pre-Admission Screening and Resident Review (PASRR), Level of Care (LOC), and Nursing Facility Tracking (NFT) Requests Under One Profile**

Effective March 16, 2026, Nevada Medicaid and Nevada Check Up providers will be able to create and submit a Pre-Admission Screening and Resident Review (PASRR), Level of Care (LOC) and Nursing Facility Tracking (NFT) request at the same time under one profile through the PASRR screening tool. The order of approval will not change: PASRR must be approved first, then LOC and NFT will be reviewed and determined.
