**Nevada Medicaid Web Announcement 3918**

## **Pregnancy Presumptive Eligibility Documents Updated**

The Pregnancy Presumptive Eligibility Documents, including the billing instructions, addendum, and training sign-up sheet, have been updated and replaced on the Nevada Medicaid Provider Portal website on the [Provider Enrollment](#) webpage.

The changes to the billing instructions include the following:

- Added provider types (PT) 43 (Laboratory) and 96 (Rural Emergency Hospital) to the list of PTs who may render services to presumptively eligible pregnant persons.
- Added additional covered lab codes.
- Updated for rebranding.

The changes to the addendum include the following:

- Updated section 1.5 to include the minimum percentage of individuals to assist in completing a full Medicaid application.
- Updated section 1.6 to clarify the retention timeframe to “37 months after the closure date.”

The changes to the training sign-up sheet include the following:

- Updated Division of Welfare and Supportive Services (DWSS) to Division of Social Services (DSS).
- Updated the email address to which the training form should be emailed.

Providers are requested to discontinue use of the previous versions of these documents immediately and use the updated documents dated 05/15/2026.

Prior versions of the addendum will not be accepted. Providers will be notified and required to complete the updated forms.

Please visit the NVHA website [Pregnancy Presumptive Eligibility](#) for more information.
