Web Announcement 426

Behavioral Health Provider Types 14 and 82 Must Be Re-Enrolled

As previously announced, Nevada Medicaid required provider types 14 (Behavioral Health Outpatient Treatment) and 82 (Behavioral Health Rehabilitative Treatment) to re-enroll in Nevada Medicaid by Oct. 31, 2011.

National Provider Identifiers (NPIs) of providers who did not re-enroll and all Atypical Provider Identifiers (APIs) were terminated in the Medicaid Management Information System (MMIS) effective Oct. 31, 2011. Affected providers will receive a letter indicating the termination.

Prior authorization requests that are submitted using a terminated NPI or API will be cancelled without being reviewed for medical necessity. When a request is re-submitted due to the initial use of a terminated NPI/API, it may require an adjustment to the start date of service to comply with timely submission guidelines.
