Announcement 623

CPT Code 90686 (Fluarix®) is FDA-Approved and is a Vaccine for Children (VFC) Vaccine

Attention provider types 12, 17 (specialties 174, 195 and 196), 20, 24, 28, 74 and 77: Effective with dates of service on or after January 1, 2013, CPT code 90686 (Fluarix® vaccine; Influenza virus vaccine, quadrivalent, split virus, preservative free, when administered to individuals 3 years of age and older, for intramuscular use) is FDA-approved and is provided free of charge to Vaccines for Children (VFC) providers for eligible recipients age 3 and older.

CPT code 90686 is not reimbursed through Nevada Medicaid/Nevada Check Up. Providers who administer the vaccine must bill the administration code (CPT code 90460, Immunization administration through 18 years of age via any route of administration, with counseling by physician or other qualified health care professional; first vaccine/toxoid component) at the usual and customary charge and bill the vaccine (CPT code 90686) at a zero dollar amount for recipients through 18 years of age. For recipients over 18 years of age, bill the appropriate administration code, along with the vaccine (CPT code 90686). Do not bill the vaccine to Nevada Medicaid/Nevada Check Up as it is supplied by the VFC program.
