Announcement 740

## **Physician-Administered Drug Claims That Reimbursed with Dispensing Fees Will Be Reprocessed**

Some physician-administered drug (PAD) claims have been inappropriately reimbursed with a dispensing fee. Per Nevada Medicaid and Check Up billing guidelines, PAD claims should not include a dispensing fee because an administration fee is reimbursed instead. This issue has been corrected and claims that paid with inappropriate dispensing fees will be automatically reprocessed. The adjudication of any reprocessed claims will be reflected on a future remittance advice.
