Announcement 968

## **Uses for the “ICD-9-CM Emergency Diagnosis Codes for Non-U.S. Citizens with Emergency Medical Only Coverage” List**

The “ICD-9-CM Emergency Diagnosis Codes for Non-U.S. Citizens with Emergency Medical Only Coverage” document is a list of ICD-9-CM diagnoses codes for which emergency medical services are covered by Nevada Medicaid for non-U.S. citizens eligible for emergency medical only coverage. This includes the provision of outpatient emergency dialysis through the Federal Emergency Services Program (FESP). For outpatient emergency dialysis FESP policy information, please see [Medicaid Services Manual \(MSM\)](#) Chapter 200, Attachment A. Medical services for treatment of the diagnosis codes on the list are not reimbursed for non-U.S. citizens eligible for emergency medical only coverage when associated with non-emergent medical services or once the emergency medical condition is stabilized. The Social Security Act, Section 1903 (v) (3) - Payment to States and 42 CFR 440.255 - Limited services available to certain aliens, preclude Medicaid reimbursement of non-emergency services for non-U.S. citizens eligible for emergency medical only coverage.

The “ICD-9-CM Emergency Diagnosis Codes for Non-U.S. Citizens with Emergency Medical Only Coverage” document is available at <https://www.medicaid.nv.gov/providers/priorauth/referencelists.aspx>.
